

DOWNLOADABLE PACK

CDP response planning pack

By DS Consulting | consult-ds.com

A preparation pack to assign ownership, control evidence, and manage score-focused review before submission.

A note on how to use this resource

CDP responses become rushed when ownership, evidence, and review logic are left too late. This planning pack helps teams organise the response cycle before deadlines compress the work and exposes what can be improved this year versus what belongs in the next-cycle backlog.

Right for CSOs, CFOs, sustainability leads, legal teams, and operations leaders contributing to the CDP response.

SECTION 1: OWNERSHIP MAP

- ▣ Assign section leads and evidence owners.
- ▣ Record internal deadlines ahead of the external due date.
- ▣ Keep a log of unresolved questions and dependencies.

SECTION 2: EVIDENCE TRACKER

- ▣ List all supporting documents and their locations.
- ▣ Track whether evidence is current, approved, and in scope.
- ▣ Flag where narrative claims are stronger than the evidence base.

Use the checklist items below as working prompts. Replace placeholders with named owners, dates, and document links. Keep the final version in the same evidence location used for reporting, governance, or programme delivery.

SECTION 3: SCORING FOCUS

- ☐ Identify the answers most likely to improve score quality this cycle.
- ☐ Separate documentation wins from structural programme gaps.
- ☐ Capture next-cycle backlog items for issues that cannot be fixed now.

SECTION 4: REVIEW CADENCE

- ☐ Set weekly control meetings during the active response period.
- ☐ Lock answer versions and change history.
- ☐ Archive the final answer pack for next year and internal learning.

Suggested next step

Use the completed version as the working document for your next steering discussion, programme review, or submission-planning meeting. Once owners and dates are filled in, move it into the live governance cadence rather than leaving it as a static download.

Need help turning this into a live ESG operating model?

Use this resource as the working draft, then contact us if you want support with ownership, operating cadence, evidence design, or implementation.
