

DOWNLOADABLE QUESTION BANK

ESG tender response question bank

By DS Consulting | consult-ds.com

A reusable answer library structure for customer tenders, procurement forms, and supplier questionnaires.

A note on how to use this resource

Commercial teams often keep answering the same ESG questions from scratch, which increases response time and exposes inconsistent claims. This question bank is designed to help teams centralise approved answers, attach evidence, and route new requests with more control.

Right for bid teams, sales teams, procurement functions, sustainability leads, legal teams, and customer assurance teams.

SECTION 1: QUESTION TAXONOMY

- ▣ Group repeat questions by theme and response owner.
- ▣ Separate factual, narrative, and commitment-based questions.
- ▣ Track the most frequent incoming questions and deadlines.

SECTION 2: ANSWER LIBRARY

- ▣ Write approved standard answers in clear language.
- ▣ Attach the relevant evidence reference to each answer.
- ▣ Note where tailoring is allowed and where it is not.

Use the checklist items below as working prompts. Replace placeholders with named owners, dates, and document links. Keep the final version in the same evidence location used for reporting, governance, or programme delivery.

SECTION 3: ROUTING AND ESCALATION

- ☐ Name an intake owner for questionnaire coordination.
- ☐ Set turnaround expectations by question type.
- ☐ Escalate unapproved claims or commitments early.

SECTION 4: CONTINUOUS IMPROVEMENT

- ☐ Review question trends quarterly.
- ☐ Feed repeated weak areas into the ESG programme backlog.
- ☐ Refresh answer blocks after policy, target, or disclosure changes.

Suggested next step

Use the completed version as the working document for your next steering discussion, programme review, or submission-planning meeting. Once owners and dates are filled in, move it into the live governance cadence rather than leaving it as a static download.

Need help turning this into a live ESG operating model?

Use this resource as the working draft, then contact us if you want support with ownership, operating cadence, evidence design, or implementation.
